

Friends of the Zoo

The Bugologists have now grown up and turned into butterflies... To reflect this change, the Zoo has decided to modify its summer day camp format. You can now become a Friend of the Zoo. Every Thursday, from 9 a.m. to 3 p.m., young Friends will be setting off on an adventure trip to the various Borealie ecosystems. The different subjects explored over the summer months will include plants, birds, mammals, amphibious animals and lots more—something to look forward to!

Join the Friends of the Zoo and become an unconditional Nature-lover.

For young people aged between 7 and 12. Every Thursday from June 26 to August 14 inclusive. \$155 for 8 full days. Passport holders: \$135
