

An Overnight at the Zoo

You are looking for something different for your group to do? An overnight at the zoo will certainly make a change of scenery.

This activity starts at 8 p.m. with a guided tour of the walking area focussed on the way animals adapt to nightlife. The evening ends round the campfire, followed by a sleep-in on the raised walkways near the grizzle bears' habitat. The group will have a naturalist with them for the duration of their nocturnal adventure. Breakfast will be served before you leave in the morning.

Reservations required. Cost: \$40 for adults and \$35 for children under 12.
