

A Private Guided Tour

This is an activity that was formerly offered exclusively to organisations and school groups. It has now been made available to all visitors who would like to learn more about Boreal biodiversity. Each person or group will be accompanied by an experienced nature guide who will take them round the zoo site. The guides will introduce you to animal hideaways and tell you about individual animal behaviours. In their capacity as your private naturalist, they will answer all your questions and, maybe, even provide you with some Boreal surprises!

Cost: \$50 an hour additional to cost of site ticket. This price covers 1 person, a couple, or a family of 2 adults and 2 children. Reservations required. Activity subject to availability.
